Paper from The IECEX National Committee of the United Kingdom on Handling of National Differences within the IECEX framework for discussion at the IECEX May 2019 Operational Meetings

National Differences in product standards are captured well in the IECEX Bulletin. However, National Differences in user standards and specifically IEC 60079-14 are proving a challenge for users. The IECEX National Committee of the United Kingdom requests that consideration is given to handling of National Differences within the IECEX scheme in a similar manner to the IECEE scheme whereby a fair amount of information on National Differences is available on the IECEE website.

Yours sincerely

Raj Vagdia
Secretary, The IECEX National Committee of the United Kingdom L/6/10
